

CHILDREN OVER 14 IN VOCATIONAL TRAINING

Salt Lake, March 10.—I am glad to be home and most pleased to bring back the message that Utah and her people are held in high esteem by easterners and especially by the educators whom I met during my trip," said A. C. Matheson, state superintendent of public instruction, who returned yesterday from the convention of the National Educational Association held in Richmond, Va., February 23 to 27. According to Superintendent Matheson, it was the largest and most successful convention of the section ever held, and a great deal tending to improve educational methods was accomplished.

"The convention," said Mr. Matheson, "adopted a resolution favoring the establishment of vocational schools for pupils over 14 years of age and compulsory attendance at continuation schools for pupils from 14 to 18, who are doing vocational work. The convention also favored consolidation of small school districts. It was the opinion of those present that the province for teaching sex hygiene is the home, but should the teaching of it be attempted in any school, then it should be taught by a person having special preparation for the work."

"The convention reaffirmed its resolution favoring the establishment of a national university and expressed thanks to the National Bureau of Education for its assistance in educational work. There were many interesting papers read and able discussions heard during the convention and the subjects taken up indicated that the schools of the nation are going through a transition and that great care must therefore be exercised to ascertain just what changes may be made advantageously, both in subject and in method."

"One of the ablest and what many regarded the best address of the convention was made by Commissioner Snodden of Massachusetts, on 'Fundamental Distinction Between Liberal and Vocational Education.' He gave it as his opinion that while liberal education would necessarily be as generously sustained in the future as in the past, yet in about ten years, as much money would be expended for general educational purposes and that these increased funds would come largely through national sources."

"He also expressed the view that a big problem before school men is to find, if possible, how present school machinery may be used to give effective vocational training. He gave the impression that he felt it would be as putting new wine into old bottles. He was of the opinion that most of the present methods and school paraphernalia used so long and so successfully for general educational purposes would have to give way largely to more direct methods, and that while in the last analysis the school plant would likely provide adequate equipment and facilities for educational work, yet for a while, at least, he felt that the home would have to co-operate with the school and vice versa, in the work of home economics; that the teaching of farming would have to be done largely on the farm; that shop work would have to be done largely in the shop and cooking in the kitchen—all of these, however, to be connected closely with the schools."

CHURCH CENSUS HAS BEEN TAKEN IN SALT LAKE

Salt Lake, March 10.—Estimated totals from the nearly complete returns from the canvass made for the religious census committee of the association of Bible Schools of Salt Lake City give \$48,075 for the Mormon church and \$30,000 for all other churches. These figures are not declared by the committee to be accurate, in view of the fact that a few blocks have been virtually untouched and that a number of houses were visited by the canvassers when there was no one at home; but in the opinion of C. H. Zimmerman, chairman of the census committee, the final and complete canvass will show these to be approximately correct.

Mr. Zimmerman's report was presented last night at a meeting of the Bible School association held at the Third Presbyterian church, Eleventh South and Eleventh East streets. The Rev. R. F. Bronson, president of the organization, presided and there were present representatives of fifteen evangelical churches of the city.

The leading denominations, aside from the Mormon church, as shown by the census returns so far received, are summarized as follows: Roman Catholic, 25,162; Methodist, 19,522; Congregational, 19,122; Presbyterian, 18,722; Baptist, 13,000; Scientists, 12,172; Jewish, 5,372; Episcopal, 1,753; Christian, 501; Lutheran, 553; Unitarian, 104.

Leading in numbers were those who expressed no preference for any denomination, these numbering 25,466, greater in number than any denomination except the Mormon faith.

The report also showed that at 246 homes information was declined, that 2195 places were visited where no one was at home. The canvassers found only seventy-three vacant houses in the course of their work.

Statistics as to the denominations in the minority follow: Agnostic, 1; Apostolic Faith, 2; Atheist, 1; Hard-shell Baptist, 4; Calvary Evangelical, 2; Calvinist, 1; Greek Catholic, 27; Church of God, 1; Divine Science, 2; Dutch Reformed, 4; Free Thinkers, 3; German Reformed, 1; Golden Rule, 1; Harmonial Science, 1; Infidel, 1; International Bible School association, 8; Japanese church, 1; Josephite, 41; Living Kingdom of God, 4; Mental Science, 2; New Thought, 11; Non-Secularist, 12; Occult, 1; Progressive, 2; Quaker, 8; Russellite, 2; Salvation Army, 17; Seventh Day Adventist, 70; Spiritualist, 16; Swedish Free church, 2; Syrian church, 3; Theosophy, 7; Volunteers of America, 6; United Brethren, 13; Universalist, 3.

The congregation applauded when attention was called to the fact that the canvass showed only one church for the Infidels, Atheists and Agnostics.

MEN'S CONFERENCE IS TO BE ADDRESSED BY BISHOP

The second of the series of men's conference conducted by Bishop Spaulding will be held this evening in the Guild hall of the Church of the Good Shepherd. The subject for this evening is "The Personality of God."

The conference will begin promptly at 7:45 p. m. At the close there will be an opportunity for questions and discussion.

OMAHA HOLDING SPECIAL ELECTION

Omaha, Neb., March 10.—The voters of Omaha are today expressing the desire on four questions at a special election. The new home-rule charter drafted by a commission authorized by the last legislature is up for adoption or rejection; an ordinance compelling the street railway company to sell seven tickets for 25 cents and propositions to buy the Omaha auditorium and erect a garbage crematory are also to be voted on.

SKELTON OF RANCHER FOUND

Recent Heavy Rains Wash Up
Remains Near Sawtelle—
Former Neighbor
Arrested.

Los Angeles, March 10.—Finding of the skeleton of George W. Nash, a rancher, missing seven years, in a canyon near Sawtelle, a suburb, resulted today in a charge of murder being made against Joseph N. Smith, a neighbor of Nash's at the time he disappeared.

Identification of the skeleton, washed up by recent heavy rains, was made by Nash's relatives, who recognized gold fillings in the teeth.

Soon after the rancher disappeared, Smith is alleged to have exhibited a lease signed by Nash for his place. Mrs. Nash objected. Smith never took possession of the land and moved to China, 30 miles away, where he was arrested. The courts adjudged Nash dead four years ago and Mrs. Nash married again.

MARTIAL LAW IN BRAZILIAN STATE

Rio de Janeiro, Brazil, March 10.—Martial law was proclaimed today throughout the state of Ceara. Federal troops have been placed on guard at the principal commercial and private houses in Fortaleza, the state capital, owing to the outbreak of a strike. Martial law was proclaimed in this city several days ago.

The commander of the troops at Fortaleza reported to the minister of war today that trade was at a standstill and that the strikers were parading the streets threatening the populace and breaking into private dwellings.

The local authorities of the state of Ceara are powerless to enforce order and the federal commander reports that a force of rebels is encamped sixteen miles from Fortaleza.

GREEKS INVITED TO BE PRESENT

Mrs. Georgiana Marriott, chairman of the Chautauque Reading Circle, has extended a special invitation to the Greeks of the city to attend the meeting of the Circle tomorrow night and also extends a general invitation to the public.

Prof. Byron Cummings of the University of Utah will be the speaker at the meeting and he will give an illustrated lecture of his travels in Greece with special reference to the historic features of the old Greek cities.

The meeting will be held in the Ogden high school and will begin at 8:15 o'clock.

IF YOU ARE A DRINKING MAN

You had better stop at once or you'll lose your job. Every line of business is closing its doors to "drinking men" and you may be next. By the aid of ORRINE thousands of men have been restored to lives of sobriety and industry.

We are so sure that ORRINE will benefit you that we say to you that if after a trial you fail to get any benefit from its use, your money will be refunded.

When you stop "drinking," think of the money you'll save; besides, sober men are worth more to their employers and get higher wages.

Costs only \$1.00 a box. We have an interesting booklet about ORRINE that we are giving away free on request. Call at our store and talk it over—A. R. McIntyre, Drugs, 2421 Wash. Ave.

MILITANTS ARE ON THE WARPATH

Chicago, March 10.—Members of the house sub-committee who have been investigating the copper miners' strike in Michigan and the coal miners' strike in Colorado expected to return to Washington tonight. It may be several weeks before their reports can be completed and presented to the lower house.

The congressmen investigating the Michigan strike expected to conclude the inquiry today by hearing testimony from Charles H. Mower, president of the Western Federation of Miners, regarding his deportation from Hancock, Mich., last December.

THIN FOLKS WHO WOULD BE FAT

Increase in Weight Ten Pounds or More.

A Physician's Advice

"I'd certainly give most anything to be able to fat up a few pounds and stay that way, declares every excessively thin man or woman. Such result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste."

To correct this condition and to produce a healthy normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving fat-producing elements known to the medical profession. It is combined with meals. It mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood, and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by the A. J. McIntyre Drug Store and other good druggists everywhere and every package contains a guarantee of weight increase or money back.

CAUTION:—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh producing effect, be used by those who are already well and whose weight ten pounds or more.—Advertisement.

Three Railroads Burn "Aberdeen"

The D. & R. G., the S. P. L. A. & S. L. and the B. & G. railroads burn large quantities of "Aberdeen."

In factories, power plants, apartment houses—wherever service is heavy, "Aberdeen" is the coal usually burned.

It "steams up" for the small home owner just as cheaply and efficiently as it does for the big consumers.

Government tests show it to be over 95 per cent actual fuel—the best coal mined in the west.

All dealers sell it.

Aberdeen COAL

Mined by the Independent Coal and Coke company, at Kenilworth, Utah. C. N. Strevell, President and General Manager; James H. Patterson, Vice President-Treasurer; F. A. Druehl, Secretary.

BUFFALO EVENING NEWS MANAGER DEAD

Buffalo, N. Y., March 10.—Edward H. Butler, proprietor of the Buffalo Evening News, died last night. Mr. Butler had been ill for six weeks and his death followed an operation for mastoiditis performed yesterday.

Mr. Butler was editor and proprietor of the Buffalo Evening News and the Buffalo Sunday News. He was a prominent Republican. He was born in Leroy, Genesee county, in 1860. Mr. Butler served as director of the Associated Press and president of the State Editorial association.

LONGER SCHOOL DAYS ADVOCATED

Ogdensburg, N. Y., March 10.—The erection of a press memorial hall at Brookville, Thousand Islands, as part of the program for the celebration of a century of peace between the United States and Great Britain, is being urged by the St. Lawrence River Press association.
